About GYL and Our Vision

ABOUT GYL

Global Youth Leaders is an organization founded by Dr. Raymond Cho and Charles Kim in 2009. It is an organization that dedicates time to train future leaders by giving youth opportunities to volunteer, and to work on their leadership skills. Since its inception, GYL has helped various communities around the world in many different ways.

Founder & Chancellor : Dr. Raymond Cho
Secretary-General: Charles Chang

MISSION STATEMENT

The goal of GYL is to inspire and empower youth to become socially responsible leaders in their home, community, country and around the globe in order to create a just and sustainable future.

GYL VISION

- Strive for education and skills training to develop the potential of each and every member.
- Build social awareness and compassion for issues that impact the lives of all living things through a loving and caring attitude.
- Encourage community services that address the needs of at-risk members of the society.
- Promote cross-cultural and ethical discourse, understanding and cooperation.
- Achieve strength and integrity of character to become a role model for others within our local and global communities.

Message from the Founder

Dr. Raymond Cho
Member of Provincial Parliament
Scarborough - North

Dear Global Youth Leaders,

Greetings and congratulations to you on the occasion of Global Youth Leaders' eleventh anniversary!

As we are unable to gather together and plan a celebration, due to the global COVID-19 pandemic I want to let you know you are in my thoughts. I miss each one of you in the beloved GYL family, and I hope you are all keeping well.

The tenth anniversary of any organization is a special occasion, but it is especially true for GYL. Ten years ago, I founded this great organization, together with former Secretary General Charles Kim. We didn't have any funding, nor any support given from any level of government. Charles Kim made great contributions to the development of our organization, during those early years, especially by building strong relationships with the parents and families of members. With their support, we were able to lay down a solid foundation for the future development of GYL.

I am writing this message on April 19, 2020. This day, sixty years ago, was a special day when Korean high school, College and University students rose up together across the country to demand democracy for South Korea. It was truly a turning point for the future of South Korea. I sincerely hope that the same youth revolution takes place in the North someday, sooner rather than later.

GYL has been blessed in so many ways, and there are so many people who deserve our sincere appreciation. Most importantly, Canada deserves our gratitude. If GYL was founded in any other continent or country, we would not be where we are today. In my humble view, Canada is the greatest country in the world. I have always been immensely honoured to call myself Korean-Canadian, and I am sure you feel the same way. Nevertheless, Canada need many young leaders, and you are the leaders who will take that place.

Before closing, I feel obliged to say thank you to the current Secretary General, Charles Chang, who has made immeasurable contributions to GYL. You have made our members so confident and proud. Your love and outstanding leadership style has deeply influenced our members, and you have earned their respect.

During these challenging and uncertain times, let us all remain strong, healthy, and move forward together.

God bless you all,

Dr. Raymond Cho
Chancellor & GYL Founder

Message from Secretary General

Charles Chang
Secretary-General of GYL

Congratulations to Global Youth Leaders (Canada) on another very successful year!

In my remarks during GYL's 2018 Forum, I spoke about the fact that we were living in extraordinary times – of both successes and adversity – and that our current and future leaders would play a critical role in navigating the World through those times.

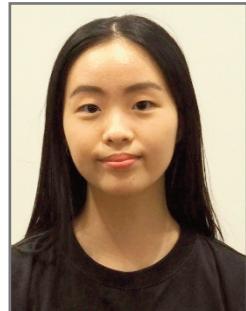

In my view, those sentiments contain even more truth today, as the World faces the COVID-19 pandemic; possibly the greatest threat to public health in modern times. Although life, as we know it, may never be the same, I am comforted in knowing that the road ahead will be a brighter one, as it will be in the care of future leaders like the members of GYL.

I wish to convey a heartfelt and well-deserved thank you to all GYL members, volunteers and parents. Your continued and sustained commitment to serving our community is what makes GYL the incredible organization that it is.

I wish everyone the best for continued good health and safety.

A message thanks from the president of GYL

Stephanie Oh
President

I want to thank everybody who supported GYL through donations which allowed members to explore new opportunities, and make our volunteering activities possible. The unseen cancellation of the forum was truly heartbreakng for GYL especially for the members who were working very hard on their presentations for the forum. Fortunately, even after hearing the news, I am glad that the members thoroughly finished their duty responsibly.

I hope that through this pamphlet, you can imagine the fun and the hard work that the members went through to make our community better while making memorable moments.

GYL allows their members to volunteer and help the community in many ways whether it is playing music, planting trees, or helping senior homes. From the continuous support of parents and mentors, the members were once again guided on their journey to discover their strengths as an individual. The only way to fully experience GYL is to be part of them and explore the opportunities with no boundaries. Thank you everybody for the best year possible!

Message from Executives

Erin An
Vice-President

We were honoured to be the executives for the 2019-2020 year. Our responsibilities allowed us to have many valuable experiences and develop their leadership skills. We worked diligently with passion to lead the GYL members. We hope for continuous growth with new faces next year.

SAMULNORI

GYL's Samulnori team prepared various performances with wonderful percussion that not only promoted Korean traditional music but also gave joy to many people. Samulnori is one of the most famous types of Korean traditional music consisting of four percussions: janggu, buk, kkwaenggwari, and jing. We gathered every other Saturday with our teacher Mr. Baek Choong-Heun. His passion and support in addition to encouragement between the members, helped us make vivid and high-quality performances. This year, Samulnori was divided into two teams: the Samulnori team of existing members and the Janggu team with new members. Both teams performed their distinctive piece at the Cummer Lodge and Castleview nursing home Christmas concerts. It was an amazing experience for all members of our team but also for the elderly in the senior homes and hospital. All of our members and our teacher were proud of our outcomes at each performance. As part of a GYL team that promotes our korean culture, we are full of enthusiasm to share our cultural pride as we continue promoting Korean culture and the joy of Samulnori in the upcoming years.

String & Band Ensemble

GYL Ensemble is a music group that meets every other Saturday at the Mitchell Field Community Centre. For two and a half hours, we practice various pieces that range in genres, all the way from classical music, to soundtrack songs. This year, we performed pieces such as "The Phantom of The Opera" and the "Howl's Moving Castle". By practicing, our ultimate goal is to be able to perform at various venues throughout the year. We have performed at senior homes, hospitals, and charity events, but we hope to perform even more next year. The ensemble's tight community also allows the members to socialize and meet new like-minded people. In a friendly and enjoyable environment, the students can network and have a great time playing music with our other members. Any student will fit in and make new friends within the group. Over the years, the ensemble has improved through the addition of new instruments, new members, and more dedication. We hope this trend continues as we look forward to seeing new faces in our ensemble next year. The ensemble is a very welcoming group so even if students may be intimidated by their music experience, we encourage them to try out and join. For anyone with an interest in music, we would love to have you in the GYL Ensemble!

Castleview Wychwood Towers

GYL members' great teamwork led to another successful year at Castleview. Every Friday, a group of GYL members gather to host a movie night for the Castleview residents. We bring them down to the auditorium from their rooms, provide snacks and accompany them back to their rooms once it is done. The movies come from a wide variety ranging from action to dramas. We take into account the resident's preference and even put out a monthly movie list to allow residents to know in advance what movies will be shown. Moreover, the movie night program is not only pleasing for the seniors but also a great learning opportunity for GYL volunteers. It allows us to improve communication, problem-solving, leadership skills and learn how to work as a team.

All of the positive feedback and appreciation from the residents for the Friday movie nights encourage us to work harder to provide even better movie experiences for them. We look forward to working with everyone for more enjoyable movie nights.

Cummer Lodge

Cummer Lodge is a Long-Term Care Home, offering individualized care to each of its 391 residents in a safe, friendly environment. Every Monday, a group of around 5 to 7 GYL members gather to provide entertainment and joy to seniors living at the long-term care home. Weekly, volunteers alternate between 2 main activities; movie nights and bingo. When hosting movie nights, GYL volunteers set up a projector, and bring the residents at a comfortable placement opposite to the screen. Taking into consideration the preference of the seniors, classical films like Step Up, Forrest Gump are often shown. Seniors are especially fond of movies with iconic soundtracks like Mary Poppins and The Sound of Music. During bingo nights, GYL volunteers search for seniors who would be interested in participating in a few games, then gather them at the recreation room. Volunteers treat the winners with chocolates and other sweets and strive to create a welcoming, lively atmosphere.

Homework Club

Homework Club is a weekly academic support session for students ranging from senior kindergarten to grade eight. Since the beginning of the school year, in September, Homework Club has been taking place every Saturday at Mitchell Field Community Centre from 4:00 to 5:30 pm. GYL members help with work in various fields including English, French, math, science, and social studies. GYL members not only help with homework but also prepare students for presentations, tests, and other in-class assessments. Furthermore, a few students bring in contest materials, for various math and science competitions, which members cover as well. With this versatility, GYL members provide an enhanced experience for the participants at Homework Club.

As a mandatory activity in GYL, members are required to attend at least three sessions. Since Homework Club has a large number of participants (approximately fifty students), members who are passionate and enjoy teaching are always welcome to come to more sessions (which most often do).

At Homework Club, GYL members develop a passion for service, learn valuable leadership and soft skills, and make sincere, long-lasting connections with students. By taking away from these experiences, GYL members can apply their new skill set in their daily lives. Moreover, by giving back to the community in this way, GYL members ignite the inner curiosity in youth and drive their efforts to build a better and brighter future.

Public Speaking Workshop

The public speaking workshop allows GYL members to enhance their speaking skills in a supportive learning environment. With assistance from Charles Chang, GYL members are provided with the opportunity to develop skills to improve their public speaking. Each member attends four sessions, in which they develop skills required to become an effective public speaker. Through the speeches they present, they receive feedback on how to improve in terms of tone, speed, and audience interactions.

Members are also able to develop various life skills such as cooperation, leadership, organization and responsibility. Each assignment (both in-class and at-home) focuses on different aspects of speech, through which members are able to learn first-hand how they are essential in delivering a strong and effective speech. This was done to educate members on how factors ranging from preparation to collaboration impacted the result. During the summer, public speaking workshop members were given the opportunity to visit the Brampton Courthouse to see two public trials. From this, members observed the importance of preparation and organization for public speaking, and how trials function.

As a result of their involvement in the public speaking workshop, members were able to improve themselves as speakers and in collaborating with others, skills that are crucial throughout life. The public speaking workshop is an excellent program and we look forward to seeing new members next year!

Tree Planting

Tree planting is an annual GYL event that has taken place for 11 years. This activity allows for GYL members to work together and do something good for the environment. GYL works together with an organization called "Friends of the Rouge River" to make this event possible. Members go to different areas in the GTA every year in order to plant trees to help the surrounding ecosystems and biodiversity in them thrive. Tree planting is an amazing opportunity for members to help many different ecosystems in the GTA while also building essential skills such as collaboration, teamwork, and empathy.

CHRISTMAS CONCERT

Every year GYL organizes a garage sale to raise funds to support our volunteer activities such as senior home movie nights or our tutoring club. With the unprecedented COVID-19 virus, we decided to allocate our funds towards frontline healthcare workers by sending several chocolate baskets to Mackenzie Health, and donating funds to Sunnybrook Health Network who generously matched our donation (3 to 1).

Thank you! Your donation was processed successfully.

Your gift of \$350.00 is already at work helping to pioneer life-saving outcomes for our patients

SUNNYBROOK HOSPITAL CONCERTS

Garage Sale

The GYL garage sale makes the members donate any used items that they do not need. The garage sale is a fundraising event because the money made in the event is donated to the senior homes in our society that financially require help. The GYL garage sale is about helping others and in the process making memories.

The members are assigned into two groups so that they can volunteer 3 hours each. The first group starts by bringing the collected donations and the equipment to prepare for the garage sale. The second group ends with cleaning up the leftover donations by putting them into a donation box. During the garage sale, the GYL members are given certain tasks. For example, the members could be assigned to organize the products, add the costs for each product, accompany customers, and make signs to advertise the event. At the garage sale, the prices at the sale are quite reasonable and cheap ranging from one to three dollars.

While doing the tasks assigned at the sale, the members could develop numerous skills, such as teamwork skills, helps individuals more socially interactive with others and the members have amazing memories. The garage sale gives the members an advantage to learn the most important life lessons. For example, the members learn how to engage consumers to buy the products. The members experience that it is not only for a good cause, but it is also a very good learning opportunity.
